

From the President's Desk:

Dear Friends,

Recent study has eye opening truth of every third senior citizen of our country being abused by family members. This fact reveals many areas which requires serious concern by the society, policy makers and those who are approaching senior citizenship. 56 percent of abuse reportedly done by sons and 23 percent by daughter in laws. Main reasons are socio economical in nature. Today 7.5 percent of our country is above 60 and every year we add millions to the number. Study suggests nationwide programme in schools and colleges for sensitising children and young adults towards aging and aged. Protocol for treatment of aged is also suggested. A robust social security scheme in line of international standards is suggested.. Those who are in mid forties must prepare for a very gloomy future , where young people will have no time , respect and money to care for unproductive lot of our country.

National Management Convention by AIMA at Mumbai has some wonderful knowledge sharing by Shri Prithviraj Chauhan , Chief Minister of Maharashtra, Shri Sachin Pilot, Minister for communication, Shri Shivakumar of Nokia, Shri Chandrasekharji of TCS and Shri Rajiv Bajaj etc. Core message in the convention reads like this: there are enough reasons for us to be hopeful for the future of our great country. Since liberalization year 1991, GDP of our country grown six times. We need to ask ourselves: are we growing?

Regards

CHETAN A KOTHARI (Advocate)

President

Rajkot Management Association

Learning Lessons from Life

Personnel Tips for every professionals and personal life of Students, Employees seeking mid career changes, young Corporate Executives, Businessmen, Housewives, Retired officers and Professionals like Doctors, Lawyers, Politicians etc., learned from my real lessons from the past, taking stock of the present and moving forward confidentially and carving out a strong future.

Tip 39: POLITICIANS - TIME FOR ACTION:

Around 30 crores Indians are still languishing for one square meal a day. In any constituency or region, development depends on linking and involving all sections of society – teachers, doctors, lawyers, government officials, other professionals, armed forces officers, students and women. An MLA, MP, Minister or any political leader needs to be progressive, techno savvy, open minded and integrate all these sections. Regular monitoring & reviewing of tasks undertaken will offer a better living to millions of poverty stricken people

Tip 40: AIM HIGH:

Two persons look through the same bars – one sees stars, other sees earth. Always aim high in profession and business. In job and profession, target monthly income of Rs one lac and not Rs 20 k ! Employee 200 people, not 50 ! Think a sales turnover of Rs 10 crores, not Rs one crore ! Help 2000 people not 200. Once you set a high aim, visualize, commit and work towards it , even the " Nature" supports you in this accomplishment. one will achieve.

Tip 41: BUSY IS THE WAY:

Always be busy. Why? Someday, we encounter adverse circumstances, a health ailment, restless people and sleepless night- so what? It is ok – this is life. Take it in the stride. They will go away after a certain period of time. Favorable as well as Unfavorable situation are part of our living. Don't get upset. Just smile and keep moving. For "Busy people" things fall into place sooner or later. Than you wonder "How"?
